Software Engineer | Full Stack Developer

React · Next.js · Node.js · TypeScript · JavaScript · AWS · AI

PROFESSIONAL SUMMARY

Software Engineer focused on full-stack and frontend engineering, with experience building scalable web applications, e-commerce platforms, and production-ready products. Specialized in **React, Next.js, Node.js, TypeScript, JavaScript, REST APIs, MongoDB, PostgreSQL, cloud computing, testing, and AI integration** for modern products.

TECH STACK

Frontend: React · Next.js · TypeScript · JavaScript · Tailwind CSS · Angular

Backend: Node.js · Express.js · NestJS · REST APIs · JWT · OAuth

Databases: MongoDB · PostgreSQL · Firebase (Firestore) · SQL

Cloud & DevOps: AWS (EC2, S3, RDS, CloudFront) · Docker · Git · GitHub · Google Cloud

Testing & AI: Vitest · React Testing Library · Supertest · Playwright · Gemini · Vercel AI SDK

EXPERIENCE

Full Stack Developer (SSR) — Gearthlogic LLC | Jun 2025 – Sep 2025

- Resolved a critical production incident before a major release, restoring full system availability.
- Optimized **Firebase Firestore queries and Cloud Functions**, improving real-time data performance (~45%).
- Refactored **React + TypeScript** components, reducing technical debt and improving maintainability.
- Integrated AI features using **Gemini and improved Node.js/Express APIs**, increasing system reliability (~25%).

Full Stack Web Developer — Freelance | Mar 2023 – Present

- Developed **10+ full-stack web applications** and e-commerce platforms using **MERN, React, Next.js, Node.js, TypeScript, and MongoDB**.
- Built **REST APIs** and backend services with **Node.js, Express.js, and NestJS**, improving scalability and performance (~35%).
- Implemented **JWT authentication, HTTP-only cookies, Google OAuth**, and cloud integrations using **AWS, Docker, and Google Cloud**.

FEATURED PROJECT

1/4 Mile — Full Stack E-commerce Platform (MERN) | 2023 – Present

- Developed a **MERN stack** e-commerce platform using **React, Node.js, Express.js, MongoDB, TypeScript, and Vite**.
- Implemented product catalog, filters, search, variants, shopping cart, checkout, orders, admin dashboard, and multiple payment methods (**Mercado Pago**, bank transfers, and card payments).
- Integrated **JWT (access/refresh tokens), Google OAuth, HTTP-only cookies, Meta Pixel + Conversions API (CAPI)**, automated emails, **technical SEO**, and performance optimization.
- Implemented automated testing using **Vitest, Supertest, React Testing Library, and Playwright**.

EDUCATION

DevSchool Academy — Full Stack Web Developer (Dec 2023)

Egg Live — Programming from Scratch (Jan 2022)

Frontend Developer Bootcamp – First Edition (Jul 2022)
